Bhagalpur, Bihar

2014- 2015

— *S.S.C*

ACADEMIC PROJECTS

Supermarket Billing Software

Technology : Java and MySql

The supermarket system in Java is a project that maintains the records of sales and billings. The whole system is made in NetBeans IDE. The system has a MySQL database as back-end support. The system supports all the features that are required here in this system. This software project is a traditional supermarket billing system with some added functionality. This system is built for vast data processing and bill generation for supermarket customers.

PERSONAL PROJECTS

VOICE ASSISTANT

Technology : Html & JavaScript

I made an app in javascript which can get what I am speaking or asking and can also answer it to some extent.

PERSONAL PORTFOLIO
